

SonarQube Scan Report: superbowl

Scan Information

Repository	superbowl
Scan Date	2026-04-03 12:17:49
Status	Failed

Error Details

Error: ERROR: Error when running: 'node -v'. Is Node.js available during analysis?
org.sonar.plugins.javascript.nodejs.NodeCommandException: Error when running: 'node -v'. Error during SonarScanner execution java.lang.IllegalStateException: Error while running Node.js. A supported
version of Node.js is required for running the analysis of JS/TS files. Please make sure a supported version of
Node.js is available in the PATH or an executable path is provided via 'sonar.nodejs.executable' property.
Alternatively, you can exclude JS/TS files from your analysis using the 'sonar.exclusions' configuration property.
See the docs for configuring the analysis environment:
